3.5.1 Corporate Stationery

The artwork files for the corporate stationery are supplied. The original files must be used and they should never be modified or recreated.

The stationery fronts are minimal and honest, on bright white stock, which allows the berry logo to stand out. The reverse of the letterhead and compliment slip feature the two graphic versions of the bespoke pattern.

When these files are to be printed the following print specification must be sent to the printer along with the supplied artwork. Neither the artwork nor the print specifications may be modified. When typing up letters on the brand letterheads, the margins shown on page 71, must be adhered to.
